Flooding in Guayaquil

Problem-Solving Presentation

Freddy Steven Sanchez Saavedra
Paralelo 14 | CELEX

The Problem

400

L/m² in 48 hours

5 m

Record high tide

1970

Sewer system built

3,959 t

Garbage per day

Affected Areas

Solution 1: Better Drainage

Clean drains

Clean streets

Bigger pipes

No garbage

Solution 2: Green Infrastructure

- **Mangroves** — **200 m**
- **Parks**
- **Samanes Lagoon**

Closing

Drainage

Green spaces

Safer city

Thank you!
